

INTEGRITY

PEARL OF THE SEA

The 650CE has a very spacious interior. The sleeping quarters are reachable from the pilothouse. There is a luxury staircase illuminated. The master bedroom is large and has its own seating area and bathroom. The other 2 cabins are spacious and there is another shower/toilet cabin. There is lots of storage space.

The view from the flybridge is a 180 degree view and has a portugese bridge. The pilothouse has a comfortable seating area. The seating area can be transformed into a bed. The kitchen and saloon are very spacious. The kitchen has a lot of storage space and the saloon has comfortable seating and a high/low table. The flybridge is reachable from the pilothouse and has a BBQ, fridge and compact cooking area and of course the second set of controls. The tender can be stowed on the flybridge. There is the possibility to install an electric crane.

On the aft deck is a bench and table. The lazaret is large and reachable through a hatch on the aft deck. There is also the entrance to the engine room with ample room for all equipment like a generator. In the lazaret you will find the washing machine and upon request the crew-cabin.
