

Lets talk about the great new Integrity trawler model 470 CE Plus

The Integrity 470CE Plus is a modern trawler-style motor yacht that combines traditional design elements with contemporary features. It is the inaugural model in Integrity's new Coastal Express range, offering enhanced performance and comfort for discerning boaters.

Design and Features:

- **Hull and Performance:** The 470CE Plus is equipped with Integrity's innovative 'Plus' planing hull, designed to deliver higher cruising speeds and exceptional efficiency. This hull design minimizes water slap at rest, providing a quieter and more comfortable live-aboard experience.
- **Exterior:** Drawing inspiration from traditional trawlers, the yacht features forward-raked windscreens that enhance its sleek appearance and offer improved visibility with reduced glare. The saloon is enveloped in over 18 square meters of tinted, toughened glass, allowing natural light to flood the interior while maintaining privacy.
- **Interior:** The spacious interior includes a saloon with panoramic views, a well-appointed galley, and comfortable accommodations for up to six people. The design emphasizes safety, comfort, and reliability, hallmarks of the Integrity brand.

Specifications:

- **Dimensions:** Length Overall (including swim platform): 14.5 meters (47' 6"); Beam: 4.54 meters (14' 8"); Maximum Draft: 1.2 meters (3' 9").
- **Capacity:** Sleeping Capacity: 6 persons; Fuel Capacity: approximately 1,700 liters; Water Capacity: approximately 950 liters; Holding Tank Capacity: approximately 200 liters.
- **Engine:** Volvo Penta D8 600hp engine.
- **Performance:** Cruise Speed: approximately 16 knots; Top Speed at Wide Open Throttle: approximately 20+ knots.

Additional Features:

- **Helm Access:** The yacht offers seamless access to the helm area via a 1.3-meter wide full-height sliding helm door, featuring 2.2 square meters of toughened glass. This door can be opened or closed effortlessly, enhancing the boating experience.
- **Construction:** Built with a solid hand-laid fiberglass hull bottom and reinforced top sides for lightweight construction, the 470CE Plus ensures durability and seaworthiness. The use of vinyl ester resin in the first two outer layers of the hull enhances resistance to water penetration.

The Integrity 470CE Plus sets a new benchmark for luxury trawler-styled motor yachts, blending traditional aesthetics with modern performance and comfort.
